

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# ATOMO - BE RESOLUTE - R - CHF (ISIN: LU1198821842)

A Sub-Fund of ATOMO, managed by Casa4Funds SA

## • OBJECTIVES AND INVESTMENT POLICY

We aim to **maximise returns on your investment**.

We invest in **other funds** which themselves invest in **shares**. These funds may also invest in bonds (loans), commodities and property. Funds are selected on the basis of their past track record and the ability of their manager to achieve consistently high returns. We may also invest directly in shares and bonds.

With the purpose of investing or protecting your investment, we may use financial contracts. Notably, **the value of your investment is protected** against changes in the foreign exchange rate of the Swiss Franc against the Euro using such contracts. Given their characteristics, these instruments may have a significant influence on the return of the Fund.

This share class does not distribute any income to you.

**You can buy and sell shares of this class every bank business day in Luxembourg.**

Your **first investment** must be equal or amount to **more than 1,000.00 Swiss Francs**.

## • RISK AND REWARD PROFILE

The above indicator reflects the historical level of risk and reward of this share class over the last 5 years. As it is based on its historical behaviour, **it does not necessarily reflect your future risk, nor reward**. In particular, financial contracts we use have specific characteristics that may not be adequately reflected in the indicator above.

This share class is classified as above, since it has experienced **moderate movements in its price**. This classification is solely valid as of the date of this document; it can change in the future.

If you invest in a fund in the category "1" above, you may sustain a loss. A fund in this category is not risk-free at all times.

**This fund does not provide you with any guarantee** on performance nor on the value of your investment in it. The latter may consequently go up, as well as down.

The indicator captures the impacts on the Fund of adverse movements in financial markets and currencies, **under normal market conditions**.

The **following other risks can be significant** to the

Fund:

- The funds, shares and bonds in which we invest can be easily sold under normal market conditions. Exceptional circumstances may lead to situations where those can only be sold at a loss for you.
- Investment positions may be relatively focused on one particular economic sector or country.
- Investing in emerging economies can present risks inherent to political stability, economic conditions, and/or regulatory and fiscal environments that may adversely affect the price of the Fund.
- The protection of your investment against fluctuations in the foreign exchange rate of the Euro against the Swiss Franc may not be perfect. You may therefore sustain a loss as a consequence of this protection.

**More details on the risks you may face when investing in this Fund are described** in the "Risk Factors" and "Risk Management Process" sections of the Prospectus, as well as in the "Sub-Funds Details" section thereof.
